PREFACE

National Bibliography of Nigeria (NBN) is published by National Library of Nigeria (NLN) in line with the provisions of the National Library Act No 29 of 1970. The publication by virtue of the Act is expected to be a comprehensive and timely list of cultural material (books, journals, newspapers, archival materials, audio-visual resources, and government publications) published in Nigeria, by Nigerians and about Nigeria/Nigerians, irrespective of the formats (print and non-print).

This publication contains supplementary list of bibliographic records for the year 2018. The capacity of NLN to produce NBN as at when due has been consistently hampered, partly due to late compliance with legal deposit legislations by authors and publishers.

Production of this publication relied on UNESCO Micro CDS/ISIS library application software which we will soon replace with KOHA library management application software for cost-effective and timely delivery of NBN. However, the quality of this publication is of high standard in terms of professional compilation of the lists contained therein, legibility appeal and material used.

We look forward to witnessing an improved compliance level with legal deposit obligations which greatly influences the timely production of NBN, as we shall not relent in our efforts to remain competitive and relevant in the creation of access and retrieval of information resource.

With our very best wishes.

Prof. Lenrie O. Aina

National Librarian/CEO

National Library of Nigeria.

ACKNOWLEDGEMENT

The Legal Deposit Department of the National Library of Nigeria (NLN) is saddled with the responsibility of compiling the National Bibliography of Nigeria (NBN). It is a publication designed to meet the copy- cataloguing and selection needs of Libraries/Librarians and offer free visibility to the work of Authors, Publishers, Researchers and Policy Makers.

We sincerely express our gratitude to the Federal Government of Nigeria and the Honorable minister of Education, Adamu Adamu for the continued funding of NBN which is a statutory publication of listed published intellectual output by Nigerians.

Also, worthy of accolades is the Board and Management of the National Library of Nigeria especially, the National Librarian, Lenrie Olatokunbo Aina whose visionary leadership gingered up timely and comprehensive production of the NBN.

The contribution of all heads of Divisions who supervised the production, is not only commendable but exemplary. Equally important is the dedication and commitment of all members of staff in ensuring accurate data management, is also acknowledged.

We cannot conclude without warmly appreciating the numerous authors and publishers who willingly complied with the Legal Deposit Legislation to make this publication possible.

On behalf of the National Librarian, we heartily thank you all.

This edition contains one thousand, one hundred (1100) entries.

ARRANGEMENT

NBN 2018 Supplementary Edition is arranged in seven (7) sections via:

i. The Classified Sequence
ii. The Author, Title and Series Index
iii. The Subject Index
iv. New Serial Titles
v. List of Publishers and Printers
vi. Tables of Summaries (Statistics)
vii. Departments in the National Library of Nigeria

THE CLASSIFIED SEQUENCE SECTION

The classified sequence section provides bibliographic information for all listed items which are arranged using the Dewey Decimal Classification Scheme (DDC).

THE AUTHOR, TITLE & SERIES INDEX

The author, title and series index is arranged in one alphabetical sequence making it possible to trace an item using the author, the title or the series.

THE SUBJECT INDEX

One of the unique features of the NBN is the inclusion of an exhaustive "subject index".

The subject index provides details of all aspects of the subject matter of th e listed items in the classified

Sequence section. Each aspect of the subject is listed with a classification number. For example, books on any Subject and its related aspect can be located using the classification number from the "classified sequence section". The subject index is arranged in an alphabetical sequence with their classification numbers.

For example a book on Biology and its related fields are treated as follows:

Biology 570

Examination, questions, 570.76

Experiments 570.78

Problems, exercises, etc 570.76

Research – periodicals 570.7205

Study and teaching 570.7

Study and teaching (Secondary) 570.712

The subject headings are preceded by Arabic numerals. Other added entries i.e. additional author entries like joint authors and title information are numbered in Roman numerals. 3. Wealth - Biblical teaching

I. Title.

NATIONAL BIBLIOGRAPHY OF NIGERIA (NBN)

A major requirement of the Universal Bibliographic Control (UBC) is the existence of effective facilities for the publication of a current national bibliography every year.

The existence of the National Bibliography of Nigeria dates back to 1950 when the University of Ibadan began the compilation of Nigerian Publications on the strength of the 1950 Publications Ordinance. The University of Ibadan was responsible for its production for two decades, 1950 – 1970.

The National Library of Nigeria charged by Decree No. 29 of 1970 section 2(2) commenced the production of the

National Bibliography of Nigeria which is the current national bibliography of this country.

It lists all books and publications in any format, irrespective of size or language that are published in Nigeria, about Nigeria or by Nigerians abroad and acquired by the National Library of Nigeria.

The National Bibliography of Nigeria (NBN) lists the catalogued entries of all Nigerian cultural material received under the Legal Deposit requirement during the year. In January, 1973, both the title and the frequency of the Nigerian Publications changed to National Bibliography of Nigeria (NBN) and is published monthly and quarterly but with annual accumulation.

The NBN has undergone significant changes over the years and can be said to have come of age in January

1975, when it adopted the International Standard Bibliographic Description (ISBD). It also adopted the Anglo- American Cataloguing Rules (AACR2) in 1982 for its cataloguing practices. In 2002, the first automated edition of the NBN was compiled using the UNESCO's Micro Computerized Development System /Integrated Set of Information System (CDS/ ISIS). Presently it is published as an annual accumulation with supplementary editions and also available in CD/ROM and PDF formats.

IMPORTANCE OF THE NBN

The NBN serves as a selection tool for library acquisitions. The production of NBN is in itself a very important bibliographic service for copy-cataloguing and the appearance of a new title in the NBN has far reaching market implications for the publisher. The production of the NBN is a unique bibliographic function which no other library or institution is given the opportunity to perform. It is an important contribution aimed at achieving Universal Bibliographic Control (UBC) and Universal Availability of Publications (UAP). It is circulated both nationally and internationally. Each annual accumulation includes author/title/series index, subject index, list of printers and publishers and statistical tables.

FACTS ON LEGAL DEPOSIT

1. HISTORICAL BACKGROUND

1.1 LEGAL DEPOSIT NIGERIA PUBLICATION ORDINANCE, 1950

Legal Deposit law in Nigeria had its origin in "1950 Publication Ordinance" which gave the University College Ibadan Library and the Secretariat Library in Lagos the right to collect two copies each of every book published in the country. Ibadan University Library soon undertook the publication of "Nigeria Publications", the country's National Bibliography in 1953. All the regional governments also enacted their own depository provisions for publishers within their regions, to the regional Library Board. The Eastern Region Board Act of 1955 gave the right to Central Library, Enugu. Western Region enacted a similar act in 1957. The Northern Nigeria "Publication Law" enacted in 1964 also vested all deposit rights with the library of Ahmadu Bello University.

1.2 NATIONAL LIBRARY ACT OF 1964

The National Library Act was passed in 1964 but it failed to provide for the fulfillment of either the function of National depository or the publication of a National Bibliography. In section 7 (1) of the act, it is clearly stated, "This act may be cited as the National Library Act 1964 and shall apply to the Federal Territory only". Looking
at this, it would appear that Nigeria had a National Library established by law which was neither a National depostory nor could publish the National Bibliography of Nigeria. The Ibadan University continued to fulfill these functions under the provision of the publication ordinance of 1950.

1.3 NATIONAL LIBRARY ACT No. 29 of 1970

However, in 1970 The National Library Act was promulgated in which a real attempt was made to rectify the major short comings of the National Library Act of 1964 with emphasis on deposit obligations and bibliograph- ical functions. The Act No. 29 of 1970 applies throughout the country and has supremacy over any Library laws of State Government in the event of conflicts. Under this Act, the National Library as the National Bibliography Agency of Nigeria was enjoined to receive three (3), twenty-five (25) and ten (10) copies of everything published in Nigeria by Private or Commercial publishers, Federal and State Agencies respectively within one month of publication at their own expense. A copy each of everything received will be sent to University of Ibadan Library for continuity.
