PREFACE

The National Library of Nigeria being the country's apex library serves as the intellectual store-house and the databank of learning of Nigeria. The Library which was established by Act No 29 of 1970 has one of its statutory functions of producing the National Bibliography of Nigeria (NBN). Specifically, section 2(2) of the Act mandated the National Library of Nigeria "to be responsible for the development of the National Bibliography of Nigeria and National Bibliographical services, either in a National Bibliographical Centre or elsewhere". National Bibliography of Nigeria lists out in a systematic manner catalogued entries of books, serials and works in multi-media i.e. microforms, computer files, audio cassettes, optical disks, etc. The NBN is aimed at achieving 100% national bibliographic control and ultimately Universal Bibliographic Control (UBC) and Universal Availability of Publications (UAP). It is a very useful bibliographic tool for authors, publishers, book-sellers, librarians, information managers and other critical stakeholders in the book industry. This publication, which is the 64th annual cummulation and 16th automated edition, produced using UNESCO Micro- CDS/ISIS library application software. It is published in both book and electronic format (CD-ROM). The current 2015 NBN has been carefully packaged in terms of entries, arrangements, pagination; Imprint and design. It is therefore hoped that the publication will serve as a resource tool for scholarship and information retrieval.

With our very best wishes.

NATIONAL BIBLIOGRAPHY OF NIGERIA, 2015 EDITION

SCOPE

The National Bibliography of Nigeria (NBN) 2015 edition is the list of all catalogued information resource materials in books, serials, pamphlets, Audiovisuals, etc. formats received under the Legal Deposit provision of the National Library of Nigeria Act, 29 of 1970. This edition contains Nine Hundred & Sixty two (962) entries.

As implied, the additional entries in the current 2015 edition vol.1 no. 6, include resource materials not captured in the annual accumulation of the NBN of previous years.

All entries in this edition cover resource materials published in Nigeria about Nigeria by Nigerians and Nigerians in Diaspora.

ARRANGEMENT

NBN 2015 Edition is arranged in seven (7) sections viz:

- (i) The Classified Sequence
- (ii) The Author, Title and Series Index
- (iii) The Subject Index
- (iv) New Serial Titles
- (v) List of Publishers and Printers
- (vi) Tables of Summaries (Statistics)
- (vii) Departments in the National Library of Nigeria

THE CLASSIFIED SEQUENCE SECTION

The classified sequence section provides bibliographic information for all listed items which are arranged using the Dewey Decimal Classification Scheme (DDC).

THE AUTHOR, TITLE & SERIES INDEX

The author, title and series index is arranged in one alphabetical sequence making it possible to trace an item using the author, the title or the series.

THE SUBJECT INDEX

One of the unique features of the NBN is the inclusion of an exhaustive “subject index”.

The subject index provides details of all aspects of the subject matter of the listed items in the classified sequence section. Each aspect of the subject is listed with a classification number. For example, books on any subject and its related aspect can be located using the classification number from the “classified sequence section”. The subject index is arranged in an alphabetical sequence with their classification numbers.

For example a book on Biology and its related fields are treated as follows:

Biology 570

Examination, questions, etc 570.76

Experiments 570.78

Problems, exercises, etc 570.76

Research - periodicals 570.7205

Study and teaching 570.7

Study and teaching (Secondary) 570.712

CATALOGUING

The National Bibliography of Nigeria is compliant with both the Anglo-American Cataloguing Rules 2 (AACR2) and other standard texts for International Standard Bibliographic Description (ISBD) e.g:

(i) Monographic Publication – 1978

(ii) Serials Publications – 1981

(iii) Cartographic Materials – 1982

(iv) Non- Book Materials – 1982

DESCRIPTIVE CATALOGUING

All listed publications are given full bibliographic detail of author’s full name followed by year of birth (if known), full title, place of publication, publisher’s address (is given in parenthesis). Example: Mokola, Ibadan (9, Queen Elizabeth Road, Isolak Building), Publisher’s name and date of publication.

Detailed information about the collation i.e. number of pages, volumes, kinds of

Illustrations, size and series are given. The price and the International Standard

Numbers (ISBN/ISSN/ISMN) are recorded.

TRACING

Using the Library of Congress List of Subject Headings, the subject analysis of each publication is provided on the next paragraph following the ISSN/ISBN, binding and price information. The subject headings are preceded by Arabic numerals. Other added entries i.e. additional author entries like joint authors and title information are numbered in Roman numerals. These are to be used in preparing headings for library catalogues and they indicate additional headings under which the publication may be represented and accessed in catalogues, e.g:

1. Business - Religious aspects
 2. Christianity - Economic aspects
 3. Wealth - Biblical teaching
- I. Title.

CLASSIFICATION NUMBERS

All works listed are classified by the current editions of both the Library of Congress Classification (LC) and Dewey Decimal Classification (DDC) schemes. For government publications, the National Library of Nigeria Classification Scheme is used in addition to the LC and DDC schemes. Excerpts of the outlines of these classification schemes are provided in the preliminaries.

NATIONAL BIBLIOGRAPHY OF NIGERIA (NBN)

A major requirement of the Universal Bibliographic Control (UBC) is the existence of effective facilities for the publication of a current national bibliography every year.

The existence of the National Bibliography of Nigeria dates back to 1950 when the University of Ibadan began the compilation of Nigerian Publications on the strength of the 1950 Publications Ordinance. The University of Ibadan was responsible for its production for two decades, 1950 – 1970.

The National Library of Nigeria charged by Decree No. 29 of 1970 section 2(2) commenced the production of the National Bibliography of Nigeria which is the current national bibliography of this country.

It lists all books and publications in any format, irrespective of size or language that are published in Nigeria, about Nigeria or by Nigerians abroad and acquired by the National Library of Nigeria.

The National Bibliography of Nigeria (NBN) lists the catalogued entries of all Nigerian cultural material received under the Legal Deposit requirement during the year. In January, 1973, both the title and the frequency of the Nigerian Publications changed to National Bibliography of Nigeria (NBN) and is published monthly and quarterly but with annual accumulation.

The NBN has undergone significant changes over the years and can be said to have come of age in January 1975, when it adopted the International Standard Bibliographic Description (ISBD). It also adopted the Anglo-American Cataloguing Rules (AACR2) in 1982 for its cataloguing practices. In 2002, the first automated edition of the NBN was compiled using the UNESCO's Micro Computerized Development System /Integrated Set of Information System (CDS/ISIS). Presently it is published as an annual accumulation with supplementary editions and also available in CD/ROM and PDF formats.

IMPORTANCE OF THE NBN

The NBN serves as a selection tool for library acquisitions. The production of NBN is in itself a very important bibliographic service for copy-cataloguing and the appearance of a new title in the NBN has far reaching market implications for the publisher. The production of the NBN is a unique bibliographic function which no other library or institution is given the opportunity to perform. It is an important contribution aimed at achieving Universal Bibliographic Control (UBC) and Universal Availability of Publications (UAP). It is circulated both nationally and internationally. Each annual accumulation includes author/title/series index, subject index, list of printers and publishers and statistical tables.

FACTS ON LEGAL DEPOSIT

1. HISTORICAL BACKGROUND

1.1 LEGAL DEPOSIT LAW IN NIGERIA

PUBLICATION ORDINANCE, 1950

Legal Deposit law in Nigeria had its origin in “1950 Publication Ordinance” which gave the University College Ibadan Library and the Secretariat Library in Lagos the right to collect two copies each of every book published in the country. Ibadan University Library soon undertook the publication of “Nigeria Publications”, the country’s National Bibliography in 1953. All the regional governments also enacted their own depository provisions for publishers within their regions, to the regional Library Board. The Eastern Region Board Act of 1955 gave the right to Central Library, Enugu. Western Region enacted a similar act in 1957. The Northern Nigeria “Publication Law” enacted in 1964 also vested all deposit rights with the library of Ahmadu Bello University.

1.2 NATIONAL LIBRARY ACT OF 1964

The National Library Act was passed in 1964 but it failed to provide for the fulfillment of either the function of National depository or the publication of a National Bibliography. In section 7 (1) of the act, it is clearly stated, “This act may be cited as the National Library Act 1964 and shall apply to the Federal Territory only”. Looking at this, it would appear that Nigeria had a National Library established by law which was neither a National depository nor could publish the National Bibliography of Nigeria. The Ibadan University continued to fulfill these functions under the provision of the publication ordinance

of 1950.

1.3 NATIONAL LIBRARY ACT No. 29 of 1970

However, in 1970 The National Library Act was promulgated in which a real attempt was made to rectify the major shortcomings of the National Library Act of 1964 with emphasis on deposit obligations and bibliographical functions. The Act No. 29 of 1970 applies throughout the country and has supremacy over any Library laws of State Government in the event of conflicts. Under this Act, the National Library as the National Bibliography Agency of Nigeria was enjoined to receive three (3), twenty-five (25) and ten (10) copies of everything published in Nigeria by Private or Commercial publishers, Federal and State Agencies respectively within one month of publication at their own expense. A copy each of everything received will be sent to University of Ibadan Library for continuity. It is also noteworthy that the UNESCO guidelines for the collection of legal deposit materials is incorporated in the National Library Act of 1970 that is:

- i. Visits to publishers ii. Examinations of announcements and advertisements in national and local news papers
- iii Liaison with government departments and government printing offices.
- iv, Establishment of an effective clerical routine of registration, receipts, checks

and follow ups.

2. WHO IS TO DEPOSIT?

There are three categories of publishers specified in the Act:

Category 1: Private Publishers

Category 2: Federal Government: Ministries, Parastatals and Agencies.

Category 3: State Government: Ministries, Parastatals and Agencies.

2.1 WHAT IS TO BE DEPOSITED?

Information source that is published in Nigeria. The Act in section 4 sub-section (7) defines the "BOOK" thus:

- a. "All literary works such as Books, Pamphlets, sheets of music, maps, charts, plans, tables and compilations.
- b. Dramatic works.
- c. Collective works such as Encyclopedias, Dictionaries, Year books, Newspapers, Magazines and Periodicals.
- d. All forms in which documentary or oral records are published". This means legal deposit is also for non-book materials, home videos, films, cassettes etc. and even electronic publications. The best copies of each publications should be deposited.

2.2 HOW MANY IS TO BE DEPOSITED

The number of copies of published materials to be deposited varies with the categories of publishers.

Private publishers are to deposit three (3) copies each of their publications. Federal government and its agencies are to deposit twenty-five (25) copies each of their publications.

State government and its agencies are to deposit ten (10) copies each of their Publications.

2.3 BENEFITS OF LEGAL DEPOSIT

- i. Preservation of the nation's intellectual output for future generation.
- ii. Bibliographic control of the Nations publications.
- iii. The legal deposit materials collected are processed and listed in the National Bibliography of Nigeria which is circulated both locally and internationally.
- iv. The AUTHOR's name will be entrenched in the annals of the Nation's publication

history.

- v. THE PUBLISHER's name will be listed in the publisher's directory section of the National Bibliography of Nigeria, which many authors and organisations including libraries consult.
- vi. The Legal deposit copy is the only authentic copy accepted by law court in case of litigation.
- vii. The Legal Deposit award is an annual event designed to encourage publishers of books, serials and producers of audio visual materials who deposit works with the National Library of Nigeria promptly in accordance with the Legal Deposit Act 29 of 1970. The legal deposit award was instituted in 1994 by the National of Nigeria.
