The Prince of Wales addressed the meeting as follows:—

MY LORDS AND GENTLEMEN.

I have thought it right to call you together on this the eve of the Opening of the Exhibition by Her Majesty the Queen, in order that I may report to you the various steps that have been taken in the preparations for this Exhibition since the last time I had the honour of addressing you.

I would, in the first place, wish to say a few words with regard to the constitution of the Royal Commission. You are doubtless aware that Her Majesty, in requesting you to act on a Royal Commission defined your duties to be for the purpose of advising upon the best mode by which the Products of Industry, Agriculture and the Fine Arts of Her Majesty's Colonial and Indian Dominions might be procured and sent to this Exhibition.

The appointment of this Commission was, I understand, framed upon the precedent of the Exhibition of 1851, and following the example of that Exhibition, it was thought desirable that a Charter should be applied for which should make the Royal Commission a body corporate, and which should give it power to organise and carry on such an Exhibition. This Charter was granted on the 15th September, 1885.

You will perhaps remember that, in my last address, I informed you of the initiative action, which I, as your Executive President, had taken, and which you were kind enough then to confirm in order that the proposals for holding a Colonial and Indian Exhibition should be properly brought to the notice of the Governments of India and of the various Colonies.

I then stated that from the answers which had been received from the Colonies and from India it was clear that this Exhibition would receive the hearty co-operation of all concerned.

I need only ask you to make an inspection of the various sections of the Exhibition to-day before leaving the buildings for you to at once realise how cordially the Governments of India and of the various Colonies have acceded to the invitation which I, as your President, forwarded to them in November 1884, and I am sure that you will join with me in requesting the Executive Commissioners to take an early opportunity of conveying to their Governments the sincere thanks of the Royal Commission for having so thoroughly realised our views as to the form that this Exhibition should take.

To these gentlemen themselves are also due our own warmest acknowledgments.

I feel also convinced that you will consider it a pleasing duty to record the deep obligation we are under to His Excellency the Viceroy and the Supreme Government of India for the admirable organisation which, under the direction of Mr. Buck, has been displayed by the Revenue and Agricultural Department, and by the officers who have assisted it.

I further propose that we should request the Viceroy to express our acknowledgments to their Highnesses the Princes of India, who have, by their liberal contributions, so materially added to the beauty and interest of the Indian section.

With regard to the administration of the Royal Commission, I may state that the Finance Committee—the appointment of which you confirmed at the last meeting—is most carefully discharging the duties which you then confided to it.

I have to ask you to confirm the appointment of the following gentlemen, who were good enough to accept my invitation to be added to it:

The Right Hon. Sir Lyon Playfair,  
The Hon. Sir Ashley Eden,  
The Right Hon. Sir Henry Thurstan Holland,  
Mr. E. W. Hamilton,  
Mr. A. W. Gadesden.

It is with much pleasure that I am able to report that the Guarantee Fund, which at the time of the last meeting amounted to £128,600 has now reached a total of £218,430.

Of this amount the Corporation of the City of London has voted £10,000, and among the contributors are many of the great City Companies.

I am sure you will agree with me in cordially thanking these Corporations, and the gentlemen to whose liberality this very satisfactory result is due. They may rest assured that no endeavour will be spared to prevent the necessity of having recourse to the contributions which they have so generously placed at our disposal.

I have to ask you to confirm the appointment of a Committee which I have requested to act for the purpose of superintending the lighting by electricity of the buildings and grounds of the Exhibition.

The gentlemen composing this Committee are:

Sir Frederick Abel, *Chairman*,  
Colonel Sir Francis Bolton, and  
Mr. W. H. Preece.

In order that practical effect may be given to the suggestion which I referred to in my last Address—that a hospitable reception should be offered to visitors from the Colonies and India and that facilities should be given to them for visiting the great manufacturing centres and places of interest in Great Britain—I have re-

sted the following members of the Royal Commission to act as a Reception Committee—

The Duke of Abercon, *Chairman*,  
The Earl Cadogan, *Vice-Chairman*,  
The Marquis of Lorne, *Vice-Chairman*.

*Colonial Sub-Committee.*

The Duke of Manchester, *Chairman*,  
The Right Hon. The Lord Mayor,  
Sir Daniel Cooper,  
The Hon. Sir Charles Tupper,  
Sir Thomas Brassey,  
General Sir Selby Smyth,  
Sir Charles Hutton Gregory,  
Sir John Coode,  
Mr. Arthur Hodgson,  
Mr. Samuel Morley,

*Indian Sub-Committee.*

Field-Marshal Lord Napier of Magdala,  
*Chairman*,

The Right Hon. Sir James Fergusson,  
Major-General Sir Peter Lumsden,  
Major-General Sir Henry Rawlinson,  
Major-General Sir Richard Pollock,  
Lieutenant-General Sir Charles Brownlow,  
Lieutenant-General Sir Henry Daly,  
Lieutenant-General Sir Samuel Browne,  
Lieutenant-General Sir Harry Lumsden,  
Sir Barrow Helbert Ellis,  
Colonel Sir Owen Tudor Burne,  
Sir George Birdwood,  
Mr. Arthur Hodgson, *General Secretary*,  
Lieutenant-General Henry K. Burne,—  
*Secretary*,  
Mr. H. Trueman Wood, *Secretary*.

trust that the Fund which has been inaugurated by them for the above purpose may before long reach a handsome amount, and feel assured that no efforts will be spared throughout the year to render the visit of our kinsmen a pleasant one.

mitting on the precedent of the organisation of the great Exhibition of 1851, I, some time since, had a letter to be addressed to all the Mayors of the Local Boards, of the United Kingdom, suggesting to them the advisability of bringing to the working classes of their various districts the benefits that would ensue from the formation of Clubs by subscribing weekly, to which a sufficient sum of money would be laid by to enable the members to visit the Exhibition.

I am happy to state that this suggestion has been responded to in many places, and I trust that a large number of the working classes, who would otherwise have found it impossible to come here, will visit the Exhibition, and will benefit by the amount of instruction to be derived therefrom.

I am very sensible of the facilities which the Railway Companies have afforded to me in this respect; without the valuable assistance which

they have extended, it would have been impossible to have obtained so much success in the formation of these Clubs: I must take this opportunity of requesting you also to join with me in acknowledging the help which the Railway Companies have promised to the Royal Commission for conveying all classes of visitors to the Exhibition.

I have appointed a Committee, consisting largely of Executive Commissioners, for organising a series of Conferences and Lectures during the summer on subjects cognate to the Exhibition, and am happy to state that I have been promised the aid of the Councils of the Society of Arts and the Royal Colonial Institute in this matter.

I have gratefully accepted an offer made by the Lords of the Committee on Education to give facilities to visitors to the Exhibition for viewing the India Museum.

I have sanctioned arrangements by which the Royal Albert Hall forms an integral part of the Exhibition, and by which the National Fish Culture Association maintains the Aquarium, which has always formed a very popular attraction at previous Exhibitions; facilities have also been given to the Royal Horticultural Society for the holding of their Flower and Fruit Shows in the Conservatory of the Exhibition.

I am desirous of expressing my thanks to Her Majesty's Board of Customs for having so greatly facilitated the transmission of goods to the Exhibition.

In conclusion, I feel sure that you will join with me in the expression of a desire to record our deep sense of the gracious act which Her Majesty the Queen has consented to perform to-morrow.

I trust that I shall have the pleasure of meeting you to-morrow morning at half-past eleven o'clock at the Principal Entrance, where we shall await the arrival of the Queen:

**THE DUKE OF CAMBRIDGE:** Your Royal Highnesses, my Lords, and Gentlemen, I have much pleasure in moving the following resolution:—

“That this meeting of the Royal Commission for the Colonial and Indian Exhibition, having heard the address of His Royal Highness the Prince of Wales, Executive President, in which His Royal Highness informs the Royal Commission of the preparations he has caused to be made since the last meeting for the holding of this Exhibition, fully approve of these preparations, and confirm the appointment of the gentlemen referred to by His Royal Highness to act on the Finance, Reception, and Conference Committees.

“The Royal Commission desire to express their cordial thanks to the Corporation of the City of London, and to the City Companies, Firms,

"and individuals who have since the last meeting contributed to the Guarantee Fund; and in conclusion the Royal Commission wish to record their cordial thanks to His Royal Highness for the able and energetic manner in which he has acted on their behalf as Executive President."

I am sure you will adopt this resolution most cordially. After the remarks of His Royal Highness the Prince of Wales it is unnecessary for me to say much as to the objects of the Exhibition, but there is one point with which the Prince of Wales could not deal with that freedom which I can, and that is the great trouble and pains which His Royal Highness has given to this Exhibition. It is not the first time that His Royal Highness has acted as President in undertakings of this nature, and it is very difficult for any individual to praise him in his presence without appearing fulsome, but it is not fulsome to say that he has always devoted his whole energies to bringing everything to successful issue with which he is connected.

I could see yesterday the result of the extraordinary ability with which those under him have carried out his wishes.

This is an Exhibition entirely confined to Her Majesty's Colonial and Indian Dominions, and it stands absolutely alone in that respect. It is admirably adapted to the interests of a great country, in that it brings together and shows in one common centre all the advantages which India and the Colonies possess in their respective spheres. I think the way in which these advantages will be brought to notice in this Exhibition will tend to that unanimity and good feeling which happily exist among all branches of Her Majesty's subjects, and will consolidate that great Empire to which we are all proud to belong and hope to see extended in a peaceful manner for many generations.

I am sure you will cordially and spontaneously vote our thanks to His Royal Highness for the trouble he has taken, and congratulate him on the success he has been able to produce.

LORD GRANVILLE: The illustrious Duke who has just sat down has undertaken a task which he has performed most admirably. I have much pleasure in seconding the resolution. After the report we have heard, which shows such an immense deal of comprehensive work done, I think it is right to call attention to the fact that the pivot on which it has all turned has been the exertions of His Royal Highness, and to how exactly in this case he has followed the example of his illustrious father in not being merely an honorary president, but in laying down the general principles and in going into every possible detail likely to insure the success of the Exhibition. We are desirous to thank the various bodies who have assisted, but we must remember that a great deal of their good work has been excited by the genial influence of His Royal Highness himself. I do not wish to go into many parts

of the subject, but one point is connected with my official position at this moment, and that is the beneficial effect which this Exhibition is likely to exert on the Colonial Possessions of Her Majesty. It will be a great disappointment indeed if it does not contribute to the interchange of commodities between the two countries. I believe the British public is not aware of the enormous resources of the Colonies and British Empire generally, and it is clear that if so many distinguished Colonial men and women come to this country at this time, it will increase not only our knowledge, but the personal good feeling which now exists. I heartily concur with the noble Duke in asking you to agree to the Resolution he has so well moved.

THE PRINCE OF WALES: Before the meeting disperses, I wish to return you my sincere thanks for the most kind and flattering manner in which my illustrious relative has proposed this vote of thanks, and to the noble Lord who has so ably seconded the same. I can assure you that the compliments you have been kind enough to pay me have been really quite undeserved. I need hardly say that I certainly take the deepest interest in the success of this Exhibition, but really all the arrangements and the trouble that has been taken are owing to Sir Philip Cunliffe-Owen and his two able assistants, Mr. Edward Cunliffe Owen and Mr. J. R. Royle. I can only say that those who have not yet seen the Exhibition will be satisfied with what they see if they take the present opportunity of going round the Court and they will be struck with the wonderful resources of the Empire. No pains and no expense have been spared by the Governors and Colonial Commissions, and by the Executive Commissioners here, to make each of their departments successful, and there has been a peaceful rivalry between them the one to excel the other. I hope that this Exhibition will be not only entertaining to the eye, and that it will be of material benefit to our own countrymen, but that it will also tend to produce a still greater feeling of brotherly love between ourselves and the rest of Her Majesty's subjects. I can only add that I trust that the sun may favor us to-morrow as it has done to-day and that we may have "Queen's weather" every sense of the word.

The meeting then terminated.
